```java
 1 import components.simplereader.SimpleReader;
 2 import components.simplereader.SimpleReader1L;
 3 import components.simplewriter.SimpleWriter;
 4 import components.simplewriter.SimpleWriter1L;
 5
 6 public class HelloJack {
 7
 8     public static void main(String[] args) {
 9         SimpleWriter out = new SimpleWriter1L();
10         SimpleReader in = new SimpleReader1L();
11
12         out.println("What is your name?");
13         String line = in.nextLine();
14
15         out.println("Hello, " + line);
16
17         out.close();
18         in.close();
19
20     }
21
22 }
23
```
